EXPERIENCE

GENERAL ASSEMBLY

Full Stack Web Developer Student

New York City, NY Feb 2014 - Present

- Created an application for users to plan trips, invite friends, and create an inventory of items for trips using Rails, RSpec, and the Twitter API
- Collaborated on an application using Rails, JS, Geocoder, NYC Open Data, the Twilio API, and Google Maps that allowed cyclists to report potholes while simultaneously contacting local reps via email and phone. Specifically worked on the application's create and delete actions, as well as the mailer that e-mailed local representatives
- Used TDD and BDD to drive code and implementation of features in web applications
- Used PivotalTracker and scrum meetings during group projects to learn fundamentals of Agile Web Development

INFOVALUE COMPUTING

Sales Representative

Elmsford, NY Aug 2013 - Feb 2014
